| LED lifetime | 10h30min | 3h |
| LED | CREE XPG2 S4 | |
| Beam range | 65m | |
| Max. intensity | 1100 cd / 1100 lux | |
| Drop protection | 1m | |
| Protection level | IP4X | |
| Battery | Standard 3*AAA | |
| Laser specifications | 0,4 – 1mW, Laser Kategorie 2 | |
| UV specifications | min 390nm / max 400nm | |

*Measurement readings based on the enclosed batteries

Performance features

- Retaining clip and magnetic positioner on the base allows you to keep hands free for other tasks
- Integrated laser makes it easier to fix position more precisely and project measurements for ceiling installations, for example. Switch-on delayed by 2 seconds when switch-on button is pressed. The arrow mark indicates the direction of the laser.
- Can be used for technical inspection thanks to integrated UV light.

Safety instructions / warning sign

Do not shine lamps directly into eyes; it is recommended to wear safety glasses when using the flashlight. Do not dispose of batteries in household waste. Avoid permanent UV radiation from the skin and eyes.

The laser accuracy of the Wiha flashlight cannot be guaranteed in case of misuse.
