

Product information

Erem®

884EPCM

Code No. : **T884EPCM**

Specials - high grade tool steel

Side cutter flush cut, for PCB separation only, 115 mm, 79 g, max. cutting capability wide 2,0 mm thickness 1,5 mm

Technical Data

Cut type	Flush
Head size	Large
Hardness classes	Soft/Medium
Hardening type	Induction
Handle / grip material	Foam coated
Operation mode	One-handed
Material to be cut	PCB laminate
Steel type	High grade tool steel
Surface finish	Anti-glare
Services available	Sharpening and Spare parts
Erem Technology	<ul style="list-style-type: none"> - Internal patented Erem Magic Spring: for constant spring force and more than 1 million cutting cycles guaranteed - High Precision screw joint: for smooth cutting action and wobble free operation with no blade overlap - Introduction hardened blades in Rockwell hardness 63-65 HRC: for exceptionally long life - EMOS maximum opening stop: Reduces operator fatigue by preventing excessive hand spread
ESD safe	No

Opening spring

No

Handle cushioned

No

Slip stop

No

Weller®
