

Data sheet Product RSP 1

Cases>Shell-, extruded assembled cases, desk consoles and Euro cases

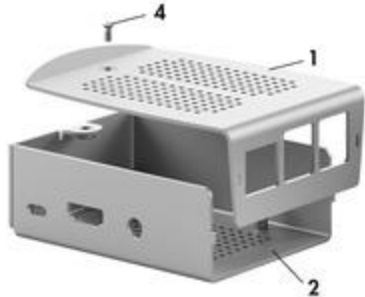

Shell cases for Raspberry Pi

contents of delivery:

1 = 1 x upper part; 2 = lower part; 3 = 2 x fixing straps (optional); 4 = 1 x mounting material

- solid case made of 1,5 mm thick aluminium half shells designed for the single board computer Raspberry Pi
- easy to install thanks to an easy screwing
- ventilation slots in the upper and lower part for an improved heat transport
- optional fixing straps, also fitting to VESA MIS-D 75 x 75
- optional heatsink set consisting of heatsink ICK BGA 14 x 14, ICK BGA 10 x 10 and appropriate double sided adhesive thermal conductive foil
- special machinings, further surfaces and colours upon request

In addition to the standard colours the colours green (similar **RAL 6032**) and violet (similar **RAL 4008**) are available for the upper shell.
