

Tutorial Panels Uno **Volta**

UV-116

Educational panel of exhaust fan connection and control

The UV-116 tutorial panel, for example, extends the possibilities of the UV-100, UV-109 and UV-110, when connecting the basic heavy current house wiring. This panel has no own power supply.

Parts used:

Exhaust fan for power 230 V / 50 Hz

Safety sockets for connecting fan to the power
or the other panel

Examples of connections:

- Switching the light circuit with the fan
- Switching the fan in the light circuit controlled from two places
- Switching a light circuit with a fan using a PIR sensor
- Dimmer in light and fan circuit

Accessories:

- Power cord
- Operating Instructions

Optional accessories

- Security patch cords
- Protective bag
- Task book
