Industrial Connectivity Solutions from Belden

Founded in 1902, Belden’s long-term proven solutions are in reliable operation worldwide. Our two leading brands – Hirschmann and Lumberg Automation – combine proven experience with innovation. And a focus on customer needs has made us the global leader in high-quality, end-to-end signal transmissions.

Developed with ease of use in mind, our industrial connectivity solutions are especially designed to stand up to surroundings characterized by dust, water and heavy vibrations.

Whether you want to transfer power, data, signals or all combined in the form of an intelligent I/O system, our diversified product portfolio offers you the right solution for every application.

Valve Connectors

When it comes to hydraulic, pneumatic and electro-magnetic actuators and sensors, a reliable valve connector solution with high protection against dust, water and vibrations is required.

Thanks to a protection circuit and/or function indicator, as well as an extremely robust design, valve connectors from Hirschmann and Lumberg Automation reliably connect solenoid valves, pressure sensors, temperature sensors and flow monitors to voltage supplies or a data network.

- Vibration and shock resistance
- UL-approved
- UV resistance
- Oil, coolants, lubricants and emulsion resistance
- Drag chain suitability
- Welding sparks resistance

Protection Circuitries

	Circuit Diagram	Circuitry Description	Operating Voltage	Rated Current	Combination with LED	Combination with Bridge Rectifier	Combination with LED and Bridge Rectifier
Indication							
		Bipolar LED function indication for applications with direct and alternating current	24, 48, 110, 230 V AC/DC	10 A	-		
		LED status indicator in combination with three switching contacts for pressure switch applications	24, 230 V AC/DC	10 A	-	-	-
Protection							
		Varistor, voltage-dependent resistor, for the absorption of inductive voltage spikes	24, 48, 110, 230 V AC/DC	10 A			
		Bidirectional suppressor diode (TVS) with fast response time protecting from critical overvoltage	24 V AC/DC	10 A			
		Recovery diode reducing voltage fly back in direct current applications	24-230 V AC/DC	10 A		-	-
Rectification							
		Bridge rectifier reversing alternating current into direct current	24-230 V AC/DC	1 A		-	
		Combination of bridge rectifier, varistor and capacitor for direct current applications protecting from surge with simultaneous signal smoothing	230 V	1 A		-

IP Code

Index		Degree of Protection
0		No protection against accidental contact, no protection against solid foreign bodies
1		Protection against contact with any large area by hand and against solid foreign bodies with $\varnothing >50$ mm
2		Protection against contact with the fingers, protection against solid foreign bodies with $\varnothing >12$ mm
3		Protection against tools, wires or similar objects with $\varnothing >2.5$ mm, protection against solid foreign bodies with $\varnothing >2.5$ mm
4		Just like 3 except for the size difference of $\varnothing >1$ mm
5		Full protection against contact, protection against interior injurious dust deposits
6		Total protection against contact, protection against penetration of dust

Index		Degree of Protection
0		No protection against water
1		Protection against vertical water drops
2		Protection against water drops (up to a 15° angle)
3		Protection against diagonal water drops (up to a 60° angle)
4		Protection against splashed water from all directions
5		Protection against water (out of a nozzle) from all directions
6		Protection against water penetration during temporary flooding
7		Protection against temporary submersion in water
8		Protection against permanent submersion in water
9K		Protection against water from high-pressure/steam jet cleaners

Valve Connectors Type A

Build to Last, No Matter Where Your Applications
Take You

With hydraulic, pneumatic and electromagnetic actuators and sensors, the GDM and GAN series stands ready for any harsh environment. Rugged, highly impermeable design guarantees uncompromising reliability in the most demanding applications.

The Benefits

Long-lasting performance – state-of-the-art housing singularly engineered for mechanical challenges and vibrations, optionally with strain relief and UL2238 approval

Outstanding reliability – high IP67 and IP69 impermeability combined with an extraordinary resistance towards environmental impacts, oils and lubricants

Unmatched flexibility – choose from numerous configurations to match your individual application challenges

Product Configurator

Type A Field Attachables

G D M 21 0 6 - A 0 U - 1 0 F

Design

GDM = Type A, female connector, field attachable

Pin Assignment

21 = 2 + PE (Ground) **31** = 3 + PE (Ground)

Housing

0 = Black **F** = Translucent
A = Black (cURus) **6** = Grey

Cable Gland

6 = M16	J = M16 with strain relief (cURus)
A = M20	M = M20 with strain relief (cURus)
9 = PG9	L = PG9 with strain relief (cURus)
B = PG11	N = PG11 with strain relief (cURus)
D = 1/2" NPTF	Q = 1/2" NPTF with strain relief (cURus)
E = G1/2" (ISO 228)	R = G1/2" (ISO 228) with strain relief (cURus)

Circuitry Options

Protection circuitry

A0 = without circuitry
V1 = Varistor
S1 = Suppressor diode
D1 = Recovery diode
D7 = Recovery Diode (half-wave rectifier)

With bridge rectifier

V3 = Varistor, bridge rectifier
S3 = Suppressor diode, bridge rectifier
D3 = Bridge rectifier only

for Pressure Switches

P1 = Dual LED (P2-P4/P3-P4 (classic switch))
P2 = Dual LED P1-P4 (operation)/P3-P4 (function)
P3 = Single LED (P3-P4 (single switch)**)
P4 = Dual LED (P2-P1/P3-P1)**

Protection circuitry with LED Indication

L1 = LED only
V2 = Varistor, LED
S2 = Suppressor diode, LED
D2 = Recovery diode, LED
D8 = Recovery Diode (half-wave rectifier), LED

With bridge rectifier with LED Indication

V3 = Varistor, bridge rectifier, LED
S3 = Suppressor diode, bridge rectifier, LED
D4 = Bridge rectifier, LED

** on special request only, MOQ's may apply

Rated Voltage

Without LED	Yellow LED	Red LED	Red and Green (dual LED)
Q = 24 V	2 = 12 V	C = 24 V	J = 24 V (pressure switch only)
K = 48 V	4 = 24 V	E = 48 V	
S = 120 V	8 = 48 V		
U = 250 V	1 = 120 V		N = 250 V (pressure switch only)
	Y = 250 V		

Central Screw

0 = sold separately	1 = Steel, Phillips combi slot	3 = Steel, PA knurled head
2 = Steel, torx head	2 = Steel, Torx Head	4 = Stainless Steel, Phillips combi slot

@ Further circuitries and LED colors upon request, please contact us at: icos-sales@belden.com

Gasket

	Flat Gasket	Profile Gasket	Captive Gasket
0 = sold separately	A = NBR	E = NBR	K = NBR
	B = EPDM	F = EPDM	L = EPDM
	C = FKM	H = MPQ	
	D = MPQ		

Packaging

F = Collect packaging, 200 pieces (versions without circuitry)	P = Single packaging, 200 pieces (versions without circuitry)
D = Collect packaging, 50 pieces (versions with circuitry only)	M = Single packaging, 50 pieces (versions with circuitry only)

Valve Connectors Type B

Dependable Technology, Perfect Connection

Intuitive handling combined with a particularly durable design makes the proven type B valve connectors the ideal choice for challenging industrial automation surroundings.

The Benefits

Easy to connect – with plug-and-play, prewired cordsets or flexible field attachables, user-friendly

Easy to maintain – protective circuitries combined with all-around clearly visible LED function displays facilitate quick optical controls and ease of maintenance

Easy to rely on – ideal for harsh applications due to an extended temperature range, high impermeability and a vibration-proof design

Valve Connectors Type C

Small in Size, Strong in Impact

These highly versatile rectangular connectors fit almost anywhere with their space-saving design and are engineered for applications where reliability and precision are imperative.

The Benefits

Small size – due to its compact housing design, type C valve connectors are ideally suited for use in confined spaces

Strong impact – integrated circuitries protect from inductive voltage and thus provide for a secure and reliable connection

Proven technology – valued worldwide and approved by various institutions such as UL, VDE or CSA

Valve Connectors Accessories

Get the Most Out of Your Valve Connector

From low temperature gaskets up to stainless-steel non-corrosive screws, Belden offers the right accessories for almost every application.

The Benefits

More flexibility – Optimized for a large variety of challenges and environments

More functionality – Extraordinary impermeability and high environmental resistance

More comfort – Clever solutions ranging from captive gaskets up to toolless screws guarantee easy handling

Find the Perfect Product for Your Needs at catalog.belden.com

Discover our expanding online catalog, streamlined to provide users easy access to the most relevant and useful product information, even on mobile devices.

Whether you are searching for a particular product by part number or exploring our extensive portfolio by browsing through product categories, you will find the information you need. The filter functionality gives

you the ability to narrow down your search by features so that you can easily find the part you need.

The online catalog continues to be updated with new products and new information. However, if you can't find something please contact your Belden representative. They will be able to help you find it or connect you with the Connectivity Center to create it.

Search for part number, download technical data sheets, compare products or request a quote

Our Technical Support is Ready to Serve You

You can expect our full support from implementation to the optimization of everyday operations regardless of the technology you use.

Welcome to our easy-to-use Helpdesk ticket system supporting Hirschmann & Lumberg Automation Connectivity Products

Hirschmann and Lumberg Automation Connectivity customers can rely on Belden's technical support through a state-of-the-art Helpdesk ticket system. Our portal for technical support allow us to handle your requests fast and efficient.

Use your preferred access for immediate technical help. Your usual customer service representative remains at your disposal to either enter the ticket in your name or possibly answer your question straight away.

Easy to Use and Navigate Support System

Custom-made Connectivity Solutions

The Connectivity Center

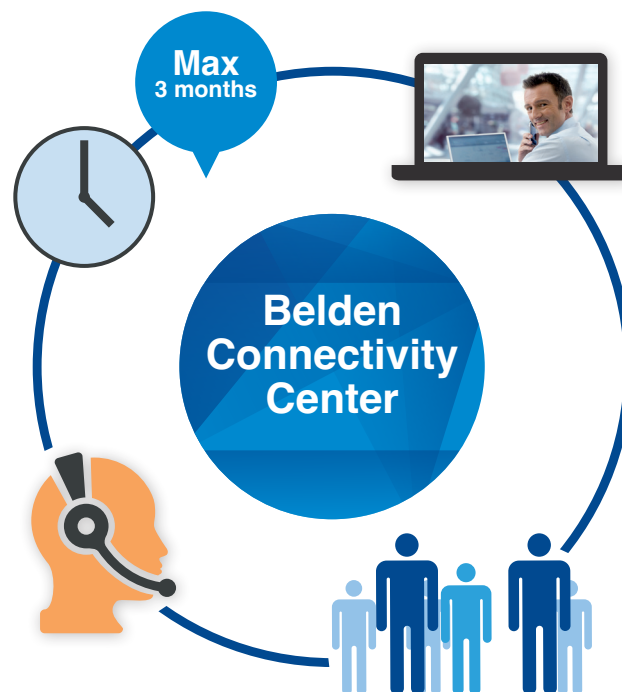

When it comes to automation technologies, we are the experts for quality connectors and wiring components. With an extensive connectivity portfolio, Lumberg Automation and Hirschmann can offer you a wide range of standard solutions.

Require a specialized solution that does not yet exist or have a problem with your current solution?

Then you simply get in touch with our Connectivity Center: the platform for custom-made solutions developed specifically for your needs. By combining all of our knowledge and internal resources, we will deliver the exact solution you need to smooth out your production process, warrant continuity and reduce Total Cost of Ownership.

The Best Solutions ... Fast!

With a dedicated team of experts, we can meet even the most demanding deadlines and technical challenges. Every month, the Connectivity Center delivers approximately 100 customized solutions for customers worldwide - some within just two weeks, hardly ever longer than three months. All solutions are guaranteed to have outstanding compact design, chemical resistance as well as high mechanical and electrical loading capacity.

Combined Strength of Three Belden Brands

Belden is a leader in the design, manufacture, and marketing of signal transmission products for data networking and a wide range of industrial connectivity products. Whenever necessary we combine the strength of all three powerful Belden brands: Belden, Hirschmann and Lumberg Automation.

Pushing Technology, Meeting Standards

As a globally active technology leader we can translate the latest trends, insights and developments into custom-fit solutions that give you the competitive advantage you are looking for. Thanks to extensive prototyping and intensive testing in our own facilities, you can be sure national and international standards are met. You can put our solutions straight to work.

Add Value to Your Business

You can be certain we provide signal transmission solutions that make your company operate faster, better, longer, safer and more economically. It's our ambition to deliver all these benefits to you from a single source, building a lasting relationship that adds value to your business.

About Belden

Belden Inc., a global leader in high quality, end-to-end signal transmission solutions, delivers a comprehensive product portfolio designed to meet the mission-critical network infrastructure needs of industrial, enterprise and broadcast markets. With innovative solutions targeted at reliable and secure transmission of rapidly growing amounts of data, audio and video needed for today's applications, Belden is at the center of the global transformation to a connected world. Founded in 1902, the company is headquartered in St. Louis, USA, and has manufacturing capabilities in North and South America, Europe and Asia.
