

JBC C245741**Chisel Cartridge 2.4 x 0.6 HT**

High thermal cartridges are characterised by their optimized tip geometries which achieve thermal efficiencies of up to 40%.

They are appropriate for general soldering purposes and they are perfect for both SMD components or for applications with high power requirements such as ground plane soldering.

They work with [T245](#) Handpieces.

[JBC Long Life Tips](#) offer instant heat up, excellent heat transfer and great durability.

They last 5 times longer than other brands thanks to the JBC Most Efficient Soldering System and the Sleep & Hibernation features.
