

Product information

Weller®

WMRP MS

Code No. : **T0052919299**

Active Tip Heizkörpertechnologie

Mikro-Lötkolben WMRP 55 W, 12 V WMRP

-Sehr feiner, schlanker Lötkolben, der sich ideal für Arbeiten unter dem Mikroskop eignet.

-Hohe Leistungsfähigkeit durch eine integrierte, aktive Lötspitze.

Technical data

Heating voltage:	12 V
Heating output:	40 W (55 W with RT MS11)
Heat-up time:	approx. 3 s 50°C - 350°C (120°F - 660°F)
Temperature range:	100°C - 450°C (212°F - 850°F)
Tip type:	RT MS series
Connectable to:	WD 1M, WR3M, WD3M

The MS tip family is designed for customers they are working according to MIL-STD-2000.

The handles and the tips have isolation between the mass and the potential. All MS Tools can be used like the standard WMRP and WMRT.

MS Tools and Tips must always be used together.

Active Tip Heating Technology

- Quick tip exchange without any tools
- Extremely short heating time 100°/sec.
- Energy saving by standby function
- Optimal reaction time

Optimum for soldering applications

Optimal tool where heating element and sensor are integrated in the soldering tip. By lowering the soldering joint temperature a faster reaction time is possible. With this tool the performance is exactly at the solder joint.
