

## Product information

# Weller®

## Extraction hose 40

Code No. : **T0053631699**

Accessory for Tip Extraction

Extraction hose 40, 1m, Ø 40 mm, complete with 2 connecting elements

Pipe System 50 - Tip Extraction

Tip extraction systems demand a high value and constant level of vacuum across the installation, the volume of air extracted is of lesser importance. To achieve this it is necessary to use a pipe system with relatively small diameter.

The Weller pipe system 50 allows extraction installations of up to 200 m when used with the WFE 20D unit in a stand alone system. The pipe sections are designed to stick together and have internal sealing bushes. In a central system, the FE irons are connected directly to the fume extraction units.
