

JBC C245260**Conical Bent Cartridge Ø 2 HT**

High thermal cartridges are characterised by their optimized tip geometries which achieve improved thermal efficiencies of up to 40%.

C245 cartridge range is the widest one of JBC with many shapes, sizes and special models.

They are appropriate for general soldering purposes and they are perfect for both SMD components or for applications with high power requirements such as ground plane soldering.

They work with T245 Handle.

JBC Long Life Tips offer instant heat up, excellent heat transfer and great durability.

They last 5 times longer than other brands thanks to the JBC Most Efficient Soldering System and the Sleep & Hibernation features.
