

JBC DPM

Manual

Precise dosage for solder paste, adhesive, solder flux, etc. – ideal for SMT rework.

Thanks to its design, the **finger-contact point is very close to the point of application**. In addition, DPM ensures a smooth feed of the solder paste and the application of a precise dosage **for small and difficult-to-access components**.

This type of dispenser is **ideal for soldering multi-pin SMD components with hot air**.

DPM is compatible with a large variety of needles and tips for the highest dispensing precision. **It can use 3cc or 5cc capacity syringe barrels**.

See needle range for the highest dispensing precision.

(Solder paste and needle not included)

REFERENCE

DPM-B

PRODUCT COMPOSITION

- 1 DPM Manual Paste Dispenser
- 2 [SB03CC 3cc Syringe Barrel](#)
- 2 [SB05CC 5cc Syringe Barrel](#)

SPECIFICATIONS

WEIGHT AND DIMENSIONS

- 50 gr (0.11 lb)
- 74 gr (0.16 lb)
- 155 x 55 x 45 mm
