

EVA-KIT - XT-PICO

The EVA-KIT for the XT- PICO-XXL offers all functions as well as hardware options in order to completely try out the XT- PICO-XXL. Two RS232/RS485 interfaces as well as an SPI display and an SD card holder are available. Also a POE (PowerOverEthernet) module is included in the EVA-KIT. Two additional WIRE-WRAP fields of the contact spacing 2.54mm and 2mm allow using or connecting your proper hardware. Using the jumpers, it is possible to individually separate or connect each bus of the XT- PICO-XXL module. An XT- PICO-XXL and the connection plan are also included in the functional scope.
