JBC CD-2SQE
Precision Soldering Station

‹   ›

DISCONTINUED

This station is suitable for precision soldering with a T210 Handle, the ideal tool when working on populated PCBs or under a microscope.

It provides the best soldering quality thanks to JBC Most Efficient Soldering System and additionally the Hibernation Mode help to extend life of tips.

The Cartridge Extractor facilitates fast and safe cartridge change.

More than 30 cartridges of the C210 range of different geometries are available.

As all the Compact Stations, the CD has a menu with more than 10 parameters to customize the control unit.
