

ARIA LIGHT

Art. No. 5954

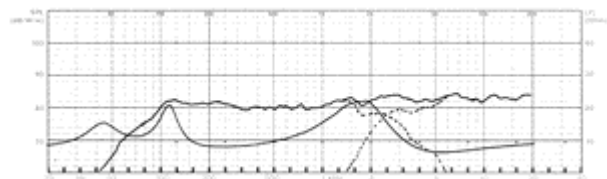

Characteristics and [sound](#) properties

The [ARIA LIGHT](#) is a small-sized 2-band shelf-top speaker system that uses the [W 100 S 8 OHM](#) mid-bass unit and the [G 20 SC 8 OHM](#) dome tweeter. In smaller rooms and if used as a shelf-mounted unit, the system has a considerable bass foundation which means that a separate [subwoofer](#) is not required. However, if coupled with a good powered [subwoofer](#), the range of tonality of far larger hi-fi speakers is achieved.

Technical Data:	
Rated power	30 W
Maximum power	50 W
Nominal impedance Z	8 Ohm
Frequency response	65 - 30000 Hz
Mean sound pressure level	82 dB (1 W/ 1m)
Cut-off frequency	2500 Hz
Principle of Housing	Bassreflex
Net volume	3,8 l
Outer dimension height	270 mm
Outer dimension width	160 mm
Outer dimension depth	160 mm
