PRODUCT DISCONTINUANCE NOTICE (PDN)

PDN#	WPD-150410-001	Last Order Date	May 31 st , 2015
Issuing Date	April 10 th , 2015	Last Ship Date	Nov 30 th , 2015

Affected Part# Replacement Part # Comments WizFi630 None This is WiFi module that supports 802.11b/g/n and full AP mode. The main WiFi chip is from Mediatek(Ralink). REASON FOR DISCONTINUANCE: □ Obsolete Design/Process Technology □ Obsolete Package/Assembly Technology □ Declined Market □ Other: CE certificate failure DISTRIBUTORS NOTIFICATIOON: As a result of discontinuance reason(s) listed above, WIZnet has decided to discontinue WizFi630 and notify you through this Product Discontinuance Notice (PDN). We strongly recommend you to not promote WizFi630 and take appropriate steps for the customers using WizFi630. As of now, we do not have any direct replacement solution for WizFi630. However, we are developing WizFi630A as an alternative product of WizFi630 but without a fixed schedule for official release. WiZnet will prepare stock of WizFi630 to cover orders until the end of 2015. In order to do so, we need order forecasts and official last buy orders from customers. Please try to complete this process by the end of May. WiZnet will provide them until the end of this year according to the delivery schedule described in the last buy order sheet. DISTRIBUTOR ACKNOWLEDGEMENT: Distributors may use this form to acknowledge receipt of this notification. Please fill in below form and return to us.
