

PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you of an upcoming change to the following products. This change is part of our effort and commitment to continuous improvement of our products and processes.

Change Type

Software

Products Affected

Part Number	Description	Old Revision	New Revision
ED41000P0-01	EDS4100 4-Port Device Server, PoE, No Power Supply, RoHS	J23	K23
ED41000P2-01	EDS4100 4-Port Device Server, PoE, International Power Supply, RoHS	J25	K25

Description and Extent of Change

Lantronix is pleased to announce the release of EDS4100 Application Firmware version 5.4.0.1R1. This new firmware offers several new features and improvements including:

- Added SHA-2 algorithms SHA-256, SHA-384 & SHA-512 support in SSL certificate upload
- Supports key lengths 1024 & 2048 when uploading external SSL certificate
- Supports key length 1024 when creating SSL certificate
- Displays device string once Telnet/SSH connection is established to the device (disabled by default)

Reason for Change

- Provide SHA-2 support in anticipation of SHA-1 to SHA-2 migration
- Further enhance security

For customers that would like to take advantage of the new capabilities, the new firmware, associated release notes, and upgrade instructions will be available for download from our website: <http://www.lantronix.com/support/downloads>.

Effect of Change on Fit, Form, or Function

Functional changes as noted above.

Effective Date of Change

The affected products with the above changes will begin shipping from the factory by July 31, 2017.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
