

# **RA** CONNECTOR

Disconnectable Crimp style connectors

Crimp style receptacles that are designed to mate with headers conforming to MIL-C-83503. The low insertion force contacts reduce surface finish wear and resist stress relaxation very well.

### Features -

#### • Secure lock device

The locking levers are engaged by inserting the receptacle into the header. This ensures a firm connection that's highly resistant to impact and vibration.

#### Housing lances

The contact retention lances on the resilient housing allow visual confirmation of contact lock-in for easy and secure insertion.

#### Low insertion force contact

The low insertion force contacts reduce surface finish wear and reduce the effects of stress relaxation.

#### • Anti-misinsertion feature

The guide devices of both housing and header prevent reverse connector insertion.

## Specifications -

- Current rating: 1.0 A AC/DC (AWG #22)
- Voltage rating: 300 V AC/DC
- Temperature range: −55°C to +85°C

(including temperature rise in applying electrical current)

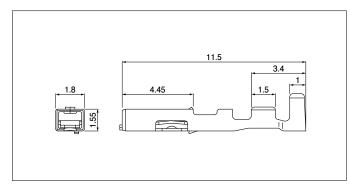

- Contact resistance: Initial value/ 15 m $\Omega$  max.
  - After environmental tests/ 30 m $\Omega$  max.
- Insulation resistance: 1,000 M $\Omega$  min.
- Withstanding voltage: 1,000 VAC/minute
- Applicable wire: AWG #26 to #22
- Applicable PC board thickness: 1.6 mm
- \* In using the products, refer to "Handling Precautions for Terminals and Connectors" described on our website (Technical documents of Product information page).
- \* RoHS2 compliance
- \* Dimensional unit: mm
- \* Contact JST for details.
