Product lead in textblock above one or several tables

The DSX series tools feature a novel threadless desoldering nozzle fixture system whereby the nozzle is inserted into the head and locked into place by applying a 1/4 turn. This patented feature allows the desoldering nozzles to be quickly and easily exchanged and also improves the rate of thermal transfer from the desoldering head to the desoldering nozzle providing the tools with a faster heat up time and recovery rate. Additionally, because there are no threads in the head to foul, maintenance and costs are reduced.

Long description	DX Measuring Nozzle
Short description	Measuring Nozzle
Packaging information	
Shelf pack size (Units per shelf pack)	Single
Technical Data	
Hardening type	None
Corresponding Soldering tool family	DX
Plating	Iron
Tip form	Ø

Application

Electronic

Weller[®]
