

# Data sheet Product LA 25 400 230

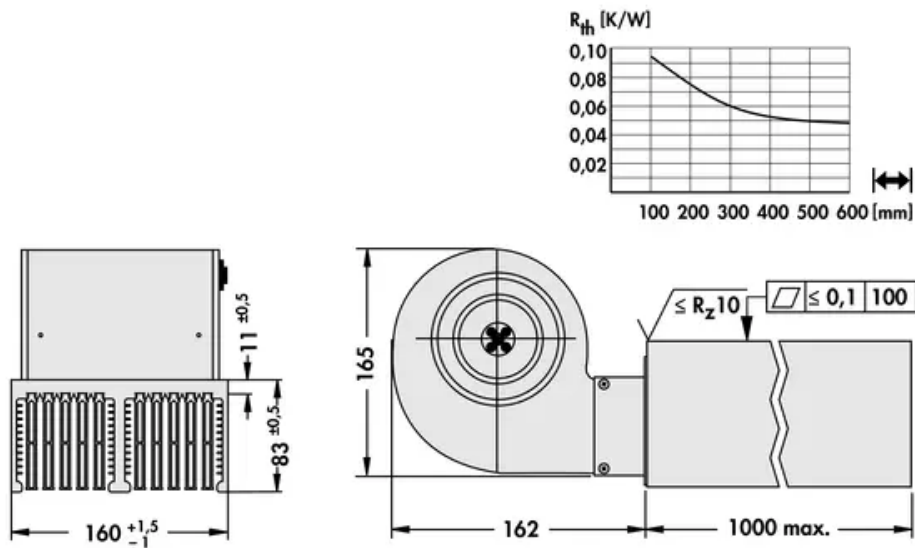

Cooling aggregates>Cooling aggregates with radial fan

160 x 83 mm, with radial fan

## Features

|                     |                                                                                                                                                                                                        |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| width:              | 160 mm                                                                                                                                                                                                 |
| height:             | 165 mm                                                                                                                                                                                                 |
| length:             | 400 mm                                                                                                                                                                                                 |
| thermal resistance: | 0.095 - 0.049 K/W                                                                                                                                                                                      |
| surface:            | <ul style="list-style-type: none"> <li>aluminium natural/degreased/cutting edges not deburred (by the metre not degreased/cutting edges not deburred)</li> <li>mounting area(s) milled flat</li> </ul> |

## Technical Drawing

## Fan

|                      |                                                                           |
|----------------------|---------------------------------------------------------------------------|
| bearing type:        | <b>ball bearing</b>                                                       |
| type:                | <b>ebmpapst, radial blower with safety guard, double sided absorbtion</b> |
| discharge air flow:  | <b>435 m<sup>3</sup>/h</b>                                                |
| rotation speed:      | <b>1,950 min<sup>-1</sup></b>                                             |
| power inout:         | <b>87 W</b>                                                               |
| current consumption: | <b>0.39 A</b>                                                             |
| circuit voltage:     | <b>230 V AC</b>                                                           |
| temperature range:   | <b>-25°C... +40°C</b>                                                     |
| motor condenser:     | <b>2 µF/400 V</b>                                                         |
| noise level:         | <b>58 dB(A)</b>                                                           |
| weight:              | <b>1,500 g</b>                                                            |
