

ALTO II

Art. No. 5967

Characteristics and [sound](#) properties

This 2-way column speaker, [ALTO II](#), designed as a 30 litre vented system, is another suggested application from the Alto series. The same driver arrangement has been selected as for the [ALTO I](#) but, here, the lower range octaves benefit from the enlarged [cabinet](#) volume and optimum bass [frequency](#) to produce powerful, responsive bass.

[ALTO II](#) is also well-suited to improving the [sound](#) of low-priced compact hi-fi systems.

The [ALTO II](#) can be positioned freely anywhere in the room, producing clearly defined spatial [sound](#) character.

Extract from HiFi Test

"the elegant Alto II bass reflex column speaker fascinated us with its bass reproduction that would put many a speaker twice the size to shame."

Value for money: very good

Extract from Klang & Ton

"Its bass reproduction is not only very rich and very powerful, but in addition highly precise, full of detail and free of colouration. Both the base and lower mid-range remained perfectly neutral."..
"Music reproduction is airy and far reaching."

Value for money: very good

Technical Data:

Rated power	60 W
Maximum power	100 W
Nominal impedance Z	4 Ohm
Frequency response	40 - 22000 Hz
Mean sound pressure level	83 dB (1 W/1 m)

Cut-off frequency	3500 Hz
Principle of Housing	Bassreflex
Net volume	28 l
Outer dimension height	800 mm
Outer dimension width	230 mm
Outer dimension depth	230 mm
