

JBC C210006

Bevel Cartridge Ø 1

C210 cartridges are appropriate for precision soldering jobs with medium power requirements.

Due to the size, these cartridges are perfect to work with SMD, under a microscope, or with conventional components.

They work with T210 Precision Handle, B·100 and B·500 Handles for B·IRON.

JBC Long Life Tips offer instant heat up, excellent heat transfer and great durability.

They last 5 times longer than other brands thanks to JBC Most Efficient Soldering System and Sleep & Hibernation Modes.
