

## Product information

Erem®

EROP155

Code No. : EROP155

Side cutter

Side cutter, semi flush cut, burnished, ESD safe, max. Cu 1,0 mm, 110 mm, 72 g

## Marketing Texte

Long description	Side cutter, semi flush cut, burnished, ESD safe, max. Cu 1,0 mm, 110 mm, 72 g
Short description	Side cutter

## Packaging information

Shelf pack size (Units per shelf pack)	Single
----------------------------------------	--------

## Technical Data

Cut type	Semi Flush
Material hardness	Cu
Head size	Medium
Head shape	Side Cutters
Hardening type	Induction
Hardness classes	Soft
Handle / grip material	Foam coated
Operation mode	One-handed
Material to be cut	Metal
Surface finish	Anti-glare
Steel type	Tool steel

Services available	Sharpening and Spare parts
Erem Technology	<ul style="list-style-type: none"> <li>- Internal patented Erem Magic Spring: for constant spring force and more than 1 million cutting cycles guaranteed</li> <li>- High Precision screw joint: for smooth cutting action and wobble free operation with no blade overlap</li> <li>- Introduction hardened blades in Rockwell hardness 63-65 HRC: for exceptionally long life</li> <li>- EMOS maximum opening stop: Reduces operator fatigue by preventing excessive hand spread</li> </ul>
Material Diameter or thickness MAX	1,0
Material Diameter or thickness MIN	0.03
ESD safe	No
