

Product information

Weller®

WXP 200

Code No. : **T0052920599**

Fast Response Heating Technology

Soldering iron WXP 200, 200 W, 24 V with soldering tip XHT D

High Power soldering iron compatible to the WX stations. Ideal for applications with a high temperature demand e.g. LED backpanels or HF shieldings.

Technical data

Voltage (heater):	24 V
Heating output:	200 W
Heat-up time:	approx. 19 s 50°C - 380°C (120°F - 660°F)
Temperature range:	100°C - 450°C (212°F - 850°F)
Tip type:	XHT series
Connectable to:	Weller WX Stations

Fast Response Heating Technology

- Beneficial soldering tip prices
- Max. heating transfer
- Soldering tip in optimized sensor position
- Fast reaction time

Due to an optimized sensor position a high performance is given.
